Got Rita

Got Rita

Got Rita

Got to burn it all down

Got Rita

Got me back on the road again

She got me feeling like I can fly

Yeah my baby's alright Got Rita

[Verse] So you're standing like you're down and out

I don't know

Baby's crying like a dance no more

So long and leaving like it's black and white

So come on you got me feeling like you never before

Here we go

Don't be scared to hold my hand I want to feel you wonder

Gonna ride you like a wonder command

So come on and get down

[Chorus] Rita Rita

[Guitar Solo]
